Jobs on
planting coral

Lower ocean
acidification
Increase carbon fixation

Research and develop

2025-2028 Sprout Seed

CwiD 1.5

Education &
Entrepreneurship

Increase quality of water
and
homes for sea animals

Carry out experiments
and tests

2028-2030 Colorful Blossom

CwiD 2.0

Sustainable
tourism on coral reef

Boost the diversity
of sea animals
balance climate change

Set comprehensive
Products lines

CwiD, is just a beginning.....

A wide-angle photograph of a sunset over the ocean. The sun is a bright orange orb partially obscured by dark, silhouetted clouds. The sky is a mix of deep blues, purples, and oranges. The ocean in the foreground has dark, choppy waves with white foam. In the distance, a low horizon line shows some faint silhouettes of land or structures.
